FERRANDO THE AVENGER.

A Tale of South America.

(Continued.)

About twelve months after the occur-
rence of the disgusting drama described
above, the citizens of Bogota were startled
and horrified by a fearful and wholesale
murder, committed upon a family of the
highest Spanish nobility—the head of which
was a member of the royal *audiencia*. The
victims were the Marquis de Alva and his
whole family consisting of six persons, the
nobleman himself, his wife, a son, and three
daughters. The means employed to exe-
cute this fearful deed was poison. It was
swallowed in wine, of which upon a particu-
lar day, they had all drunk after dinner.

The cork from which the wine was taken
had been poisoned, and not lately. The
wine had been brought from Carthagena by
way of Honda, or the river Magdalena, and
as the merchant from whom it had been pur-
chased at Carthagena was a man of unblem-
ished integrity, no suspicion could be fixed
upon him. The Marquis's relations resided
in Spain; and though his brother came
over and instituted a rigid inquiry into the
matter, there was no clue obtained of the
poisoners. It seemed a causeless murder;
for the Marquis was considered a harmless
man, and no one was supposed to have
been his bitter enemy.

The whole circumstance was looked upon
as mysterious in the extreme.

Scarcely had the people ceased to think
of this awful theme, when it was thrown
into fresh consternation, by the report of
another wholesale murder, more hideous in
its committal, and more atrocious in its con-
comitant circumstances. Here, as before, a
whole family were slaughtered—the family
of Don Andres Tavalá, including himself—
in all five persons.

Don Andres was a man of high distinc-
tion, and like the Marquis de Alva, a mem-
ber of the *audiencia* real. He resided in a
handsome villa, about five miles from the
city, on the southern road. He was in the
habit of visiting the city daily, but returned
to his country seat in the evenings. These
he always spent in the bosom of his family
which consisted of a wife and three lovely
daughters, with four domestics.

These last were found in a room by them-
selves, fast bound and gagged, but altogeth-
er unhurt. Don Andres with his wife and
daughters, all cold corpses, lay upon the
floor of the grand *salon*, or drawing-room.

The father was gagged with a piece of bro-
ken steel—his naked back horribly lacerat-
ed with a raw hide, that still lay beside
him—and a dagger had been pressed
through his heart. His eyes were open
and staring fearfully; and the agony of
despair was depicted upon his countenance.

The females had all suffered the same
and most brutal violation; for there was no
blood upon them; they had been strangled;
for around the neck of each the cord had
left its purple mark.

But what seemed strangest of all—not
an article of property was touched—even
the costly jewelry worn by the wife and
daughters of the minister, remained where
they were wont on their hands, arms, and
necks. This at once established the fact
that the murderers were no robbers; and
seemed also to establish the identity of the
assassins with the perpetrators of De Alva.

All the information that the servants
could give, was that they had been seized
by a band of men wrapped in ponchos, and
masked; and after having been gagged and
tied in perfect silence, by the direction of
one who seemed to be the leader, they
were locked up in a remote chamber, rather
than they saw nothing, and heard nothing
save once or twice a scream uttered by a
female voice, and occasional peeps of blood
and violent laughter.

It would be tedious to describe the
consternation which followed these start-
ling developments. All day parties seek-
ed the whole country. Troops of armed citi-
zens patrolled the streets, and on every day,
as troops were posted, at every corner, re-
wards of high value offered to any one
circumstance that might give clue to the

business. The houses of citizens were closely barred and bolted, for none could guess who might be the next victim, since no one, it was supposed, had given less cause than those already murdered for such a terrible destiny.

In the midst of all this excitement, a friend called one morning, at the house of the Conde Villalobos, in the Calle Real. He rang the bell and waited for admission. No one came. Thinking that the servant might not hear his summons, he rang again with more violence, still no one came; and he continued to ring and knock loudly with like success. At length becoming alarmed, he summoned the morning patrol, and after some deliberation the door was forced open, and the party entered the house, and afterward the sala. Here they beheld with horror the dead body of the Count, surrounded by the mutilated corpses of his family, a wife, two sons, and a beautiful daughter, the latter rigidly clasped in her mother's embrace—a tableau of death.

Not the slightest vestige of the murderers remained to serve as a clue to their discovery; and no traces of them could anywhere be found.

No property had been abstracted from the house. Every thing was in its place, plate, gold, and jewelry.

The servants like those of Don Andres, had been seized, gagged and pinioned, and were confined in the back part of the Conde's mansion. The descriptions they gave of the murders corresponded with that given by the servants of Don Andres; and no doubt was entertained but that the assassins, in both cases, were the same.

But another fact which also corroborated the identity, was that the Conde, like Don Andres and the Marquis, was a member of the Royal Audience. This at once, and with some show of reason, gave rise to a new suspicion, that a political conspiracy was at the bottom of these mysterious murders. The victims had all been of the government aristocracy, and the three fathers were members of the government itself. This gave a new turn to things. The viceroy became ferocious. Innocent persons half suspected were seized and flung into prison, and the greatest consternation prevailed; for between the terror of assassins and the viceroy's vengeance, no one could tell how short a time he might be master of his life or liberty.

(To be continued.)

Dr. Frost, the celebrated state geologist of Tennessee, has discovered in Sumner county an immense and inexhaustible deposit of the purest granular silicious rock, suitable for the manufacture of the finest glass ever known. It will be worth more in Tennessee than half a dozen gold mines.

THE UNITED STATES ARMY, 1847.—We have before us the official report of the organization of the regular army of the United States for 1847:—

The divisions, as follows: General staff, 86; medical department, 58; pay department, 13; military storekeepers, 17; corps of engineers, 143; topographical engineers, 36; ordnance department, 634; three regiments of dragoons, 3,526; one of mounted riflemen, 1,181; four regiments of artillery, 5,700; sixteen regiments of infantry, 13,312; a regiment of volunteers, 4,151. The report is dated Adjutant General's Office, Washington, Nov. 30, 1847.

DISSOLUTION OF THE UNION.—A few days ago, the respectable James Austin and others, met on the island of Nantucket, in sign of the shores of Massachusetts bay, for the purpose of presenting a petition to the Legislature of Massachusetts, praying that a convention of the people of the State might be called, to make a peaceful separation of the State of Massachusetts from the Union. This petition, which is described by some as "a drop from a coming shower," was presented to the Legislature and gave rise to an animated debate, after which debate, it was respectfully referred to the committee of the judiciary of the House of Representatives of Massachusetts.

Advertisers will please bear in mind that the circulation of the DAILY NEWS is more than DOUBLE that of the Daily Herald, and greater than the combined circulation of the Daily and Weekly Herald. Treaty of Peace with Mexico.

The New York Herald of Monday evening contains a telegraphic despatch from Washington, stating that a government messenger had arrived there with a treaty of Peace with Mexico. The Herald says: By the Southern telegraph at this moment, we have received what we believe to be authentic intelligence of a treaty of peace with Mexico having been negotiated and accepted by the Mexican government, at Queretaro, by General Scott, on the basis of the instructions sent out by the government last year.

This intelligence arrived at New Orleans on the 13th, by the steamer New Orleans, bringing Vera Cruz dates to the 18th inst.

Mr Breanor, the bearer of despatches from Gen. Scott, has also been landed at Mobile by the steamer Iris.

These despatches contain the treaty of peace proposed by the Mexican Congress at Queretaro.

Gen. Scott took the responsibility of accepting this treaty, under certain conditions, and of forwarding it to the American government at Washington.

One of the conditions is, that 12,000 American troops are to remain in the city of Mexico till certain obligations are complied with. The balance to be withdrawn.

The boundary line is to be the Rio Grande up to the Gila, giving New Mexico and California to the United States.

The United States is to give a pecuniary consideration to Mexico, of a small amount, compared with that in the rejected treaty of Tachubaya.

Gen. Scott, as Commander-in-chief of the American Army, has taken the whole of the responsibility of accepting this treaty, and forwarding it to our government. Mr Triun's agency in it, is probably subsidiary to that of Gen. Scott.

Great excitement prevailed at New Orleans, and greater at Washington.

The Boston Star gave a "Punster Party" in that city on Saturday evening, which didn't exactly come up to the anticipations of the Corporal. A committee of three was appointed to decide on the merits of the comedians sent in, and the author of the most witty one was to receive a house-lot for his sharpness. Each comedian was to be accompanied by one dollar, and it was anticipated that the number sent in, would be sufficient to pay for the lot, but it fell far short, and proved to be a losing game.

Yesterday being the one hundred and sixtieth anniversary of the birth of George Washington, a National salute of twenty-one guns was fired at 12 o'clock, M., from the U. S. Revenue Cutter Jackson, Capt. Waldron at anchor in our harbor.

EDUCATION OF COLORED CHILDREN IN OHIO.

A bill passed the Ohio House on the 5th inst. relative to the education of colored children in that State. It provides that in every town, village or township, where there are twenty colored children, a school may be organized for such children, with directors and officers for such schools. It also provides that school taxes paid by colored persons shall be appropriated to such colored schools. It expressly excludes colored children and schools organized for them from all participation in or benefit from the school fund, but gives such schools the benefit of any money or property donated to them. It also provides that no colored child shall be admitted into schools with white children, to enjoy the same benefits, where any parent of a white child in such school, or any legal voter, whether having a child at such school or not makes any objection to such child being so admitted.

COMMODORE STOCKTON.

The legislature of New Jersey have passed, with great unanimity, resolutions complimenting the gallantry and patriotism of Com. Stockton, and rendering to him the thanks of the legislature of his native state.

LATE FROM FORT MANN.—The Boonville Bulletin says that Lieut. Bickering arrived in that city from Fort Mann on Sunday evening, 30th ult. He represents the men at Fort Mann as being in a most deplorable condition, on account of the scurvy, which had shown itself, though but few had died from it. Lieut. B. was slightly injured by one of the chiefs in the "Peltzer affair." All the Indians had "lariettes," and it was this that induced Capt. Peltzer to believe they had come to steal stock, of which there is not much doubt.

Henry L. Rount, adjutant of the Indian battalion, who was present at Fort Mann at the time of the attack upon the Indians, justifies Capt. Peltzer in his conduct upon that occasion. He says of the Indians, that their white flag was at first respected, and would have continued to be, if the chief, by his signs, had not attempted to practice a deception as to their strength. He represented the number of his men to be sixty-five, when in reality they were four hundred and eighty-eight; all but sixty-five having concealed themselves in the grass and behind the hills.

PREMIUM FOR A TRACT ON SABBATH RECREATIONS.

A few friends of the Sabbath in Philadelphia have offered a premium of \$100 for the best tract of 4, 8, or 12 pages, showing the influence of Sabbath Recreations on health and morals, and meeting the popular reasons urged for them. Committee of Award: Reverends John Ludlow, D. D., John Kennedy, D. D., C. Van Rensselaer, D. D., J. H. Fowler, and Mr. S. H. Perkins, of Philadelphia. The manuscripts to be addressed (post-paid) before the 1st May, to William A. Hallock, 150 Nassau street, N. Y.

TOO LATE NEVER.

Handell was 48 before he gave the world assurance of a man. Dryden came up to London from the provinces dressed in druggist somewhat above 30, and not even then knew that he could write a line of poetry; Milton was upwards of 50 when he began his great work; Cowper knew not his own might till he was far beyond his 30th year, and his Task was not written his beyond his 50th year; Sir Walter Scott was also upwards of 30 before he published his Minstrelsy, and all his greatness was yet to come.

WATER IN LEAD PIPE.

The associate editor of the Christian Citizen, published in Worcester, Mass., in noticing his recovery from a severe illness, says: "As it may be a benefit to our readers, we take this opportunity to state, that the sole cause of all the illness we have suffered during the past year, has been the use of water pumped from a well through a lead pipe. With almost every particle of food and drink we have taken by this means, small particles of one of the worst mineral poisons; and the result has been days and weeks of the most intense suffering. In some constitutions this poison does not act for a long time, and upon some no ill effects are observable for years. Yet we think the risk is too great to justify any one, who has regard for his health, or that of his family, to use water that has been in contact with lead. A friend of ours has entirely lost the use of his hand from the same cause, and been unable even to hold a pen for more than five months; and we could cite similar cases. We trust, however, that a word to the wise will be sufficient."

TRACT OPERATIONS.

Some idea of the gratuitous work of the American Tract Society may be formed from the fact, that during the last month there were granted for foreign distribution, 195,630 pages; Shipping, 90,171; Hamane and Criminal Institutions, 2,319,190; by Colporteurs and Agents among the destitute, 1,211,320; other grants, 214,898 pages. Total, 1,996,949 pages. Total since April 1, 1817, 22,343,223 pages.

One of the most important effects of the recent progress of Science is the alliance of Chemistry with Physiology. By which a new and unexpected light has been thrown upon the vital processes of animals. For this we are indebted chiefly to the German and French chemists. We have now a clear understanding of the different action of elements, poisons, and remedial agents, and the long derided theory of the blood being the portion of the system upon which the latter should act, is now a demonstrated truth. The great object, therefore, is to ascertain what remedy will act most directly upon the constituents of the blood when in the act of combination. Experience, observation, and a cloud of witnesses, establish the fact that SANDS' SARSAPARILLA, is at the very head of this class. Cancer, scrofula, salt rheum, erysipelas, leprosy, ringworm, mercurial diseases, suppuration of the glands, swellings of the joints, and all the diseases of the muscles and tissues, together with general debility of the system, yield to this unfailing purifier of the blood—for the blood is the channel through which disease finds its way to the various organs of the body.

Prepared and sold by A. B. & D. SANDS, Druggists, 100 Fulton st. N. Y.

Sold also by Dr. R. R. Hazard and R. J. Taylor, for Newport, by J. Russell, Fall River, by C. Dyer, R. J. TAYLOR.

The Lady's Pith is Radway's Soap. I knew my face was Tanned and Freckled, With Pimples, and with blotches speckled Sunburn and other annoying spots, With Scurvy, Morphea and Salt Rheum, Upon my cuticle assumed To reign with full authority, But ah! my friends, I'll cure them soon, With a soap of a superior quality, Radway's Chinese Medicated— Is the name of this precious Soap: It really cures all heretofore— Either Pimples, Blotches, Tan or Spots. The lady hair she spoke the truth, She found the Soap the friend of youth, And beauty now assumes its place, Upon the clear, transparent face, All ye who have upon your skin, Pimples or blotches, Pastures or Tan, On the neck, the nose, the face or hands, Or if perchance upon your arms— And would possess angelic charms, Fear not to rest your faith and hope In Radway's Medicated Soap.

A secret which baffles the ingenuity of all who have attempted to analyze its properties. Radway's Chinese Medicated Soap. The extraordinary effects of this delicious emollient is truly astonishing, for no sooner is Radway's Soap applied to the surface, than tan, sunburn, pimples, blotches, tetter and other excrescences speedily disappear. It softens, soothes, heals and sweetens the skin, and imparts beauty to the complexion of all who use it. Sold for 2s. for large, and 1s. for small. at 2 Courtland st. N. Y. R. J. TAYLOR, Agent.

MADAME C. AMY.

This truly irascible lady is still at the United States Hotel, displaying her mysterious and wonderful powers in developing human character, by the aid of improved modern science; bringing from oblivion the things of the past, and giving form and pressure to objects yet sleeping in the wide abyss of possibility.

Cold Feet are an evidence that the blood is encumbered with morbid humors, which not only render the circulation sluggish and unequal, but prevent a proper supply of the vital fluid to the extremities. Hence coldness of the hands and feet, accompanied with headache, giddiness, and many other unpleasant complaints.

Wright's Indian Vegetable Pills are one of the best preventives in the world against Cold Feet, because they not only cleanse the blood from those impurities which are the cause, but they impart an energy to the circulation which carries it with vigor to every part of the system.

Beware of Sugar Coated Counterfeits.—Remember that the original and only genuine Indian Vegetable Pills have the written signature of William Wright on the top label of each box.

The genuine are for sale by C. G. C. HAZARD, No. 80 Thames-st., Sole Agent for Newport; and by Nathan Dennis, Portsmouth; Seabury & Almy, Tiverton Bridge; Arnold Smith, Tiverton Four Corners; H. P. Brown, Little Compton; W. A. Brown, Adamsville. Wholesale at the New England Office, 198 Tremont-st., Boston.

CAUTION.—The public are particularly cautioned against being imposed upon by persons that are selling preparations of Sarsaparilla which they pretend have the same qualities as *Wright's Sarsaparilla* and *Tomato Bitters*. Since these Bitters have been offered to the public, there have been no less than four different imitations got up by as many different individuals, and sold for the genuine. The good qualities of Brown's Extract of Sarsaparilla and Tomatoes, or Sarsaparilla and Tomato Bitters, is already known and appreciated by physicians and the public—particularly by those who have used them for Lupinus of the Blood, bad Humors, Scrofulous diseases, Bilious affections, Constiveness, loss of appetite, &c. There has been no medicine sold that has given such general satisfaction. There cannot be the least doubt but this compound is the best alterative now in use. We have abundant proof of that fact. There have been thousands of cases of impurities of the blood cured by this medicine. Some of them have been truly wonderful, where the patients have been given

over as incurable. The above compound is not merely a common extract of Sarsaparilla, but a very strong extract of the best Spanish Sarsaparilla, extracted by an entirely new apparatus, made expressly for the proprietor, and used by no other person in this country. This apparatus ensures the whole medicinal qualities of this most valuable root.

PHALON'S CHEMICAL HAIR INVIGORATOR.

REMEDY for all diseases of the Hair, and is restorative in all cases where baldness is not beyond the reach of art.

Nought with beauty can compare, With soft, glossy locks of hair; It not endowed with such by nature, Use Phalon's Hair Invigorator.

The subscriber having devoted a considerable portion of his time for twenty years to the study of the skin and the human hair, also the best means of treating and curing the same, and having, in the course of his experiments made various changes and improvements in the different articles approved as the best for such purposes, has at length, after laborious research and deep investigation, succeeded in bringing to perfection a composition, the virtues of which he challenges the world to excel.

The Chemical Hair Invigorator is composed of a number of vegetable ingredients of opposite qualities, and approved by the highest medical standard, the secret of blending and combining, which is known only to the subscriber, who has spared neither pains nor expense in bringing it before the public.

The Invigorator is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture of the hair never before attained, yet free from animal grease or essential oils. It cleanses the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff and other autumnous diseases, disposes the hair to curl, and keeps it so—will positively change the hardest hair into the most soft and healthy and glossy state, also imparts to it a darker color, and a free use of it will keep both the skin and hair in a healthy and luxuriant state until the last period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which when moistened with the Invigorator can be dressed in any required form, so as to preserve its place whether plain or in curls. When used on children's heads it lays the foundation of a good head of hair.

Hyer's Pills. The American Improved Hygienic Vegetable Medicine.

SAFE, CHEAP AND EFFECTIVE. This medicine makes no pretensions to miraculous powers, the raising of the dead, or to immense and astounding sales daily and hourly, after the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple and to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative properties. During the last twenty years it has worked its way into extensive use, wholly upon its own merits, by commendation from individual to individual, not having been advertised for more than twelve years till within the past few months—save occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has necessitated compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years), as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try, and then judge.

Coggeshall & Bliss' Patent Cooling Range.

THE subscriber has just taken out letters patent for a new and beautiful cooling Range, to which they invite the attention of the public.

This Range may be used in the ordinary fire place, and by a simple, though efficient apparatus, the throat of the chimney may in an instant of time, be opened or closed, so that the heat in summer and the fumes from cooking at all times may escape through the chimney.

Wood or coal may be used, and the evil of smoking chimneys is completely remedied by its introduction.

This Range is so constructed that it takes up but a small space, and yet it contains all the qualities of those which take up double the amount; and it being constructed as it is, the boilers are brought in close proximity with the fire, and it consequently boils much sooner, and with a smaller amount of fuel, than the old fashioned Ranges or cook stoves.

It contains five boilers, four of which may be converted into two, by taking out a cross piece, and thus will admit of two large boilers at the same time. It also contains and Oven 12 inches wide by 21 deep, which cannot be surpassed for baking.

The subscriber has one of these Ranges in operation at his store, where the public are invited to call and examine it, and if they will, they may at once discover its utility. He also keeps constantly on hand all kinds of Parlor, Office, and Cook Stoves, Tin Ware, &c. &c. Feb 9—4f WM. H. BLISS.

READER! READER!

If you are afflicted with Bronchitis, Asthma, Obstruction of common Coughs and Colds, Spitting of Blood, Bleeding of the Lungs, Whooping cough, croup, difficulty of breathing, sore throat, hoarseness, first stages of consumption, and all other Pulmonary or Lung Complaints, try

DOCT. EMANUEL'S BALSMIC LUNG AND COUGH JELLY.

THE materials of this Jelly are purely vegetable and balsamic, and are the invention of an eminent physician, from whom the proprietor has purchased the recipe. It is certainly worth its weight in gold, but is put at a price to be within the reach of rich and poor.

Names and residences of persons residing in the city of New York, who have benefited or benefited by Dr. Emanuel's Balsamic Cough and Lung Jelly, when it was prepared in another form:

Mr. Hiram Angell, 113 William-st., N. Y., had for some time, a dreadful pain in his side and chest, with a hacking cough, and shortness or difficulty of breath. He used part of a bottle of Dr. Emanuel's Balsamic Lung and Cough Jelly, which perfectly cured him.

Mrs. Morgan, Front-st., Brooklyn, had a very obstinate cough and cold. She tried every other remedy in vain, and Dr. Emanuel's Balsamic Lung and Cough Jelly entirely cured her.

Reader, reader, let the glad voices and grateful hearts of these respectable citizens of New York, appeal to your hearts and understandings, if you are afflicted with any pulmonary complaint, cough, cold, &c.

Mr. L. W. Conklin, 102 Eldridge-st. Mr. Alonzo Brown, 72 Reade-st. Mrs. Morgan, 162 Front-st., Brooklyn. Orange county, April 19th, 1846.

Dr. EMANUEL.

Dear Sir:—You may perhaps think my statement almost incredible. My reason for fearing so is the fact of your never recommending your Jelly for the cure of confirmed consumption, but only in its primary or first stages. I have every reason to believe that I was in its last stage; my physician told me so; my friends told me so; as will my symptoms, for they were truly alarming; and I felt fully convinced, that unless relief was obtained, I must soon be consigned to the narrow confines of the silent grave. But by the timely use of your remedy, I still live, and again enjoy my former good health. I had, indeed, dear Sir, all the alarming symptoms you speak of as forming consumption in its worst stage; but by the use of your Jelly, I again say, I am cured.

Yours, dear Sir, with great sincerity, ISAAC J. BEED.

And now, reader, having given you a plain statement, let me conjure you to pause, ere it is too late, and try Dr. Emanuel's Balsamic Lung Jelly—try it. I have no doubt, if you are low, as I can afford; if you are not, I shall have the pleasure of having rescued another from consumption; and I hope, in return, that you will not withhold from me your name, and a statement of your cure.

Dr. Emanuel's Balsamic Lung and Cough Jelly, (sold by the Agent) R. J. TAYLOR. Price fifty cents a bottle, or larger sizes one dollar.

MOTHER'S RELIEF.

IT is now about ten years since this medicine has been introduced to the public, and it stands unrivaled in its class, bearing the test of the severe scrutiny of all classes, both friendly and unfriendly. It is for one purpose;—for the use of Mothers who have to pass through a sea of affliction in giving birth to mankind, not to be described. It is for you to make an appeal. It is for your especial and general good that you should make use of some form of the MOTHER'S RELIEF before confinement. Then you can approach the parturient chamber without feeling as if you were going to the chamber of death. You may rest assured it will still all febrile and nervous affection, remove all shields from irritation and by its soothing properties it destroys the cause of hemorrhage or inflammation that so often attend and follow the hour of parturition. It causes sweet and natural rest, and at last facilitates the birth, so that Mothers have not to pass through such excruciating pain and distress. The Mother's Relief may be depended upon in all cases of threatening abortion where it is possible to be prevented in cases of Spasms, &c., causing frequent alarm, from two to three doses will give immediate relief.

As the subject is one that cannot with propriety be fully discussed in this public manner, we invite all who feel interested to call on our agents (most of the respectable Druggists in the United States,) or on the manufacturer, and they will be furnished with a pamphlet in which they will find all the facts to form a correct opinion of its merits, (and also the opinions of many physicians of eminence, and of persons who have become acquainted with its beneficial effects.

CAUTION TO PURCHASERS.—Ask for Barrington's Mother's Relief. None is genuine unless our signatures are found within the wreath of the direction that is pasted on the bottle, signed with our own hand, and over the neck of the bottle is the simple of our own hand writing also. By attending to the above directions, no one need be imposed upon. All orders will be promptly attended to.
